Title

Personality test for extroversion & introversion.

Objective

To study the nature of extrovert and introvert traits of personality.

Materials use

In order to conduct the experiment the following materials were used —
(i) A list of prepared fifty questionnaires.
(ii) Pen, paper, pencil, eraser etc.

Subject

Name :- Jenthoka narzary

Age :- 21

Gender :- Female

Qualification :- BA 5th semester

Date :- 7-2-2022

Time :- 10 AM

Place :- Laboratory

Procedure

Before starting the experiment all necessary materials were prepared and then the subject was called in and asked to be seated comfortably. The following instructions were given: "I will give you a list of 50 questions

Introversion-Extroversion**

Name..... Jenthoka Nazary
Occupation..... age 21

the test is composed of fifty statements, each being followed by 'Yes' and 'No'. There is no implication of right or wrong in any of the statements and you are asked to consider them from the viewpoint of personal like or dislike. read the statements and if you like the idea it expresses, draw a line under 'yes' if dislike it draw a line under 'No'. Proceed in the same way with rest of the statements.

- | | | | | |
|-----|---|----------------|---------------|----|
| 1. | be by yourself a great deal. | YES | NO | 1 |
| 2. | Think of life in terms of pleasure | YES | NO | 2 |
| 3. | Always be calm and collected | YES | NO | 3 |
| 4. | Have a great deal of confidence in others | YES | NO | 4 |
| 5. | Think of dream of what you will do five years from now | YES | NO | 5 |
| 6. | stay at home during a social affair | YES | NO | 6 |
| 7. | Work with many people around you | YES | NO | 7 |
| 8. | Do the same kind of work all the time | YES | NO | 8 |
| 9. | Enjoy social gathering just to be with the people | YES | NO | 9 |
| 10. | Think a great deal before deciding anything | YES | NO | 10 |
| 11. | Accept suggestion rather than working them out for yourself | YES | NO | 11 |
| 12. | Quiet rather than exciting amusements | YES | NO | 12 |
| 13. | Dislike having people watch you | YES | NO | 13 |
| 14. | Quiet a tiresome task | YES | NO | 14 |
| 15. | Save money rather than spend it | YES | NO | 15 |
| 16. | Seldom (infrequently) analyze your thoughts or motives | YES | NO | 16 |
| 17. | Indulge in reverie (day-dream) or thought | YES | NO | 17 |
| 18. | have people watch you to do things that you do very well | YES | NO | 18 |

Work Sheet No. - 1

No. of Right	No. of Wrong
1, 13, 28, 38, 49	8, 36
2, 14, 29, 39, 50	9, 43
3, 17, 30, 40	12, 48
4, 18, 31, 41	15
5, 19, 32, 42	16
6, 20, 33, 44	21
7, 22, 34, 45	25
10, 23, 35, 46	26
11, 24, 37, 47	27
Total No. of Right = 38	Total No. of Wrong = 12

Work Sheet No. - 2

	Tallies	Total
No. of Right	 	38
No. of Wrong	 	12

Procedure

-ing to the question marked as "A" if the answer was positively evaluated as extrovert traits and a question marked as "B" if answer was positively ~~was~~ evaluated as introvert traits of personality.

RESULT

Following the same principle the extrovert and introvert traits of subject were contend out and the result obtained was placed in the table below —

Table no. - 1

No. of right	38	No. of wrong	12
Score right		Minus wrong	$38 - 12 = 26$
			Extrovert.

Procedure

-ing to the question marked as "A" if the answer was positively evaluated as extrovert traits and a question marked as "B" if answer was positively ~~was~~ evaluated as introvert traits of personality.

RESULT

Following the same principle the extrovert and introvert traits of subject were contend out and the result obtained was placed in the table below —

Table no. - 1

No. of right	38	No. of Wrong	12
Score right		Minus wrong	$38 - 12 = 26$
			Extrovert.

Observation From the above result following observation may be noted —

i) The subject was found extrovert is more prominent than that of the introvert.

ii) The personality of the subject was more dominated extrovert traits.

iii) If the result of test is extrovert and introvert are equal then it will be Ambivalent.

From this we can learn that it is very rare to have exclusively personality is man

Observation

From the above result following observation may be noted —

i) The subject was found extrovert is more prominent than that of the introvert.

ii) The personality of the subject was more dominated extrovert traits.

iii) If the result of test is extrovert and introvert are equal then it will be Ambivalent.

From this we can learn that it is very rare to have exclusively personality is man

Title	Ink - blot test.
Objective	To study the nature of unconscious mind of the subject by using six ink-blot cards.

Title

Ink - blot test.

Objective

To study the nature of unconscious mind of the subject by using six ink-blot cards.

Materials use

In order to conduct the experiment the following materials were used —

- (i) A set of six vague ink-blot cards.
- (ii) stop watch
- (iii) Record sheet.
- (iv) Pen, paper, pencil, eraser etc.

Subject

Name :- Jenthoka Narzary

Age :- 21

Gender :- Female

Qualification :- BA 5th semester

Date :- 8/02/2022

Time :- 10:45 AM

Place :- Laboratory room

Procedure

Before doing the experiment all necessary materials were prepared. After ensuring all the necessary arrangement needed for conducting the experiment,

P

the subject was called in and asked to be seated comfortably in front of the table.

R

The necessary instruction was given to her in a simple and clear way as follows —

O

It was a test of imagination. Here

C

I will show you six ink-blot cards which are vague in their message, one by one for 3 minutes only. Within 3 minutes

E

you have to imagine the picture which are shown and after 3 minutes

D

you have to report how these pictures look like. Or what could they

u

be. Do you understand?

R

After getting positive response from the subject the experiment was started. At first the first ink blot

E

card was presented to the subject and at the same time the stop watch was started. The card was exposed for 3 minutes only. As soon as 3 minutes was over, the card was taken back from the subject. Then she was shown all the cards one by one in the same procedure as adopted in card no. 1.

Worksheet No - 1

Result sheet of the ink-blot test

No. of Cards	Response word	Reaction time	Physical Reaction	Remarks
1	Sofa	15 sec	Smile	
2	Penguin	15 sec	Normal	
3	Tree	25 sec	Normal	
4	Water Bottle	15 sec	Smile	
5	leaf	20 sec	Smile	
6	Starfish	30 sec	Nervous	

Total reaction
time = 120 sec

Worksheet no. 2

Average reaction of the time

$$= \frac{\text{Total Reaction time}}{\text{No. of cards}}$$

$$= \frac{120}{6}$$

$$= 20 \text{ sec}$$

was followed respectively. Response and time of response were recorded and physical reaction were also carefully observed.

Result

The result of the experiment is shown on the result sheet.

Observation

This experiment mainly measures the imagination of an individual in an objective way and also throws light on the unconscious elements of the individual.

From the result of the experiment following points may be observed.

i) The experiment can throw light on the nature of the unconscious mind of the individuals.

ii) It indicates that the subject is normal in his process of imagination.

iii) In applying imagination subject was given importance in the whole cards rather than parts.

was followed respectively. Response and time of response were recorded and physical reaction were also carefully observed.

Result

The result of the experiment is shown on the result sheet.

Observation

This experiment mainly measures the imagination of an individual in an objective way and also throws light on the unconscious elements of the individual.

From the result of the experiment following points may be observed. —

- i) The experiment can throw light on the nature of the unconscious mind of the individuals.
- ii) It indicates that the subject is normal in his process of imagination.
- iii) In applying imagination subject was given importance in the whole cards rather than parts.

Intrrospec-
tive Report

It was an interesting experimen-
-t.
